Package ‘ITALICSData’

February 1, 2017

Version 2.12.0
Date 2008-05-01
Title ITALICSData
Depends R (>= 2.0.0)
Author Guillem Rigaill
Maintainer Guillem Rigaill <italics@curie.fr>
Description Data needed to use the ITALICS package
License GPL

URL http://bioinfo.curie.fr
biocViews ExperimentData, HapMap
NeedsCompilation no

R topics documented:

Hind.QuartetEffect ........................................... 1
Nsp.QuartetEffect ........................................... 2
quartet ....................................................... 2
snpInfo ....................................................... 2
Sty.QuartetEffect ........................................... 2
Xba.QuartetEffect ........................................... 2

Index

Hind.QuartetEffect Hind.QuartetEffect

Description

It contains computed quartet effect for Hind array. Those were computed on some normal samples of the hapmap dataset.
**Nsp.QuartetEffect**

**Description**

It contains computed quartet effect for Nsp array. Those were computed on some normal samples of the hapmap dataset.

**Usage**

data(Nsp.QuartetEffect)

---

**quartet**

**Description**

Quartet Info example for the vignette

**Usage**

data(quartet)

---

**snpInfo**

**Description**

snp Info example for the vignette

**Usage**

data(snpInfo)

---

**Sty.QuartetEffect**

**Description**

It contains computed quartet effect for Sty array. Those were computed on some normal samples of the hapmap dataset.

---

**Xba.QuartetEffect**

**Description**

It contains computed quartet effect for Xba array. Those were computed on some normal samples of the hapmap dataset.
