SpikeIn

Description
Probe-level data for data from the HGU95 and HGU133 SpikeIn experiments.

Usage
data(SpikeIn95)
data(SpikeIn133)

Format
Both SpikeIn95 and SpikeIn133 are instances of the AffyBatch containing the SPMS and SMMS intensities for a genes spiked in at different concentrations. The spike-in concentrations used are provided as ppart of the phenotypic data (e.g. pData).
